GO GREEN!

New environmentally-friendly technology!

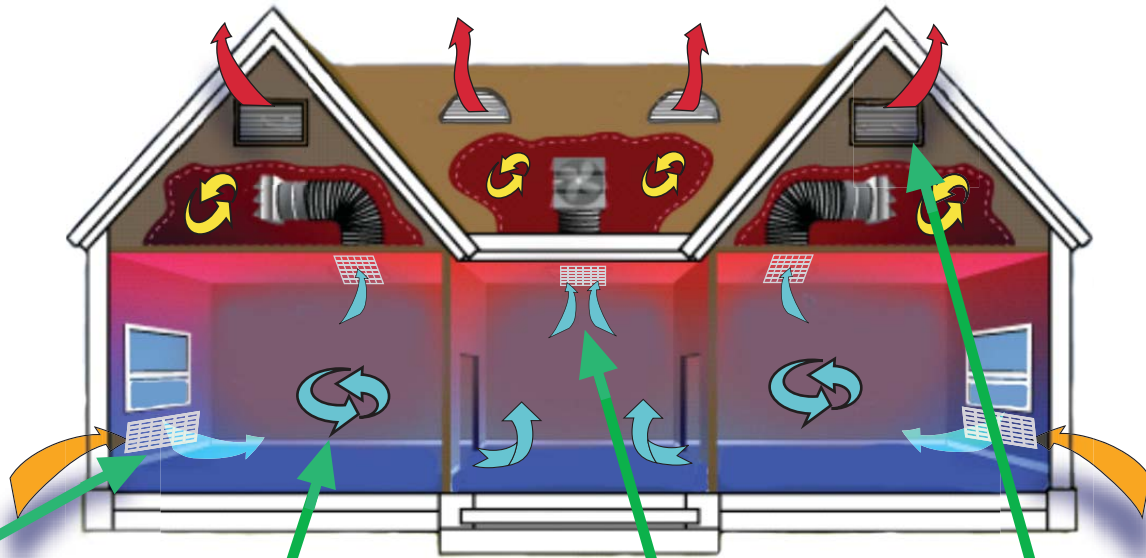

The Revolutionary new way to....

- ✓ **Cool**
Significantly cool the inside of your home for pennies per hour!
- ✓ **Ventilate**
Change the air in your home with clean fresh air 15 to 20 times per hour!
- ✓ **Exhaust**
Reduce your attic temperature which further helps cool your home!
- ✓ **Remove Germs & Odors**
Helps remove stale stuffy air, smoke, germs, pollen, dust and cooking odors from within your home!

 **QC Manufacturing Inc.**

"The Natural Choice For Energy Savings"

• The System - How it Works!

- 1** Exterior unit brings in fresh air.
 
- 2** The fresh air is filtered and cooled.
 
- 3** Interior vents draw cool air in through house and into attic.
 
- 4** Hot attic air is forced outside.
 

• The System - How you Save!

INLAND - CENTRAL CALIFORNIA			4 ton A/C SYSTEM vs - 1 EnviroCool & 4 QuietCool 1500's				625 watts
Air Conditioner System	A/C kWh used	A/C kWh cost per hr.	EnviroCool kWh used	EnviroCool kWh cost per hr	EnviroCool savings per hr.	EnviroCool savings per year	Percent Savings
Pre 1992 A/C	14516	\$3.024	750	\$0.156	\$2.868	\$3,441.50	-94.83%
Typical A/C	9278	\$1.933	750	\$0.156	\$1.777	\$2,132.00	-91.92%
Energy Star A/C	6667	\$1.389	750	\$0.156	\$1.233	\$1,479.25	-88.75%
Based on a 2,000 sq. ft. home with a typical 4 ton Air Conditioner at \$.25 per kWh operating 1,200 hrs. per year							
SOUTHWEST - DESERT REGIONS			5 ton A/C SYSTEM vs - 1 EnviroCool & 5 QuietCool 1500's				775 watts
Air Conditioner System	A/C kWh used	A/C kWh cost per hr.	EnviroCool kWh used	EnviroCool kWh cost per hr	EnviroCool savings per hr.	EnviroCool savings per year	Percent Savings
Pre 1992 A/C	27217	\$2.268	1395	\$0.116	\$2.152	\$3,873.30	-94.87%
Typical A/C	17397	\$1.450	1395	\$0.116	\$1.334	\$2,400.30	-91.98%
Energy Star A/C	12500	\$1.042	1395	\$0.116	\$0.925	\$1,665.75	-88.84%
Based on a 2,000 sq. ft. home with a typical 5 ton Air Conditioner at \$.15 per kWh operating 1,800 hrs. per year
