"Whisper quiet whole house fan system"

Our high volume fans can remove and replace all of the air in your home 15 to 20 times per hour!

1

Open windows bring in fresh air.

Open Window

2

Interior vent draws cool air in through house and into attic.

Inside Vent

3

Hot attic air is forced outside.

Attic Unit

HOW IT WORKS....

If you can imagine your home baking from the sun all day heating up your home and attic like a giant oven then turning on your QuietCool fans. Picture a giant vacuum sucking out all the hot air trapped in your home and attic while replacing it with fresh natural cool healthy air...**for pennies a hour!**
